a. Effective October 2, 1989, owners of certain permitted underground storage tanks containing petroleum are required to pay an annual maintenance fee.

b. Starting in 1993, this fee is collected from the petroleum industry, the architectural coating industry, and facilities reporting releases of lead into ambient air in the state.

c. Starting in 1991, this fee is collected from persons owning crude oil at the time that oil is received at a marine terminal by vessel; persons owning petroleum products at the time those products are received at a marine terminal by vessel from outside the state; and operators of pipelines.

d. This fee went into effect in 1991. It is collected from persons owing petroleum products at the time those products are received at a marine terminal, operators of pipelines, and operators of refineries.

e. Beginning January 1, 1991, the \$200 per-tank annual maintenance fee was replaced with a quarterly fee of \$0.006 for each gallon of petroleum placed in an underground storage tank. Beginning January 1, 1995, the fee increased to \$0.007 per gallon. Starting January 1, 1996, the rate increased to \$0.009 per gallon, and then to \$0.012 per gallon effective January 1, 1997. Effective January 1, 2005, the fee increased to \$0.013 per gallon.

f. Includes oil spill response fee revenue. No additional oil spill response fee revenue has been collected since 1991-92 because the \$50 million Oil Spill Response Trust Fund is at maximum.
